Contacto con el Elector – Electores con Necesidades de Accesibilidad

La División de Elecciones del Condado de Napa trabajará con organizaciones comunitarias para educar a la comunidad de personas discapacitadas sobre el Plan de Administración Electoral y cómo cambiará la votación en las elecciones futuras. “Disability Rights of California” (Derechos de las Personas Discapacidades de California) va a proporcionar sesiones de “train the trainer” (enseñar al capacitador) para enseñar a nuestro personal regular a capacitar a los trabajadores en los Centros de Votación sobre las mejores prácticas en el trabajo con electores con necesidades de accesibilidad. El Condado de Napa creó un Comité Asesor de Accesibilidad al Votante (VAAC) que tendrá reuniones durante todo este proceso.

NAPA COUNTY NEEDS YOU!!

The 2016 California Voter Choice Act is bringing important voting changes to Napa County on June 5, 2018 including every voter receiving a ballot by mail and new vote centers and drop box locations throughout the county for returning a vote by mail ballot. Our Election Division needs your help in making sure that these changes improve accessibility for all voters.

We are seeking your input on a draft Napa County Election Administration Plan (EAP) which will guide our outreach efforts. The draft EAP is available at this link: http://www.countyofnapa.org/ElectionDivision/ We are inviting voters with disabilities; voters from language minority communities and the groups that support them to our initial Language Accessibility (LAAC) and Voter Accessibility (VAAC) Advisory Council meetings to receive input on the draft plan.

LAAC meeting for Voters from Language Minorities Wednesday September 6, 2017 2 pm to 3:30 pm Napa County Election Division 900 Coombs St Napa CA Ste 256 parking on top floor of 2nd Street Parking Garage with direct access to our office.

VAAC meeting for Voters with Disabilities Wednesday September 6, 2017 3:30 pm to 5 pm Napa County Election Division 900 Coombs St Napa CA Ste 256 parking on top floor of 2nd Street Parking Garage with direct access to our office.

Please distribute this flyer to members of these two communities and their support groups. No RSVP is necessary. For more information or if you need accommodation please contact Registrar of Voters John Tuteur at john.tuteur@countyofnapa.org or call 707-253-4459.

INTRODUCTION

The purpose of this emergency plan is to set forth processes to carry out elections in the event of an emergency or other incident which may inhibit the department from serving the public and/or conducting an election. During a state of emergency, only the Governor may suspend this department’s duty to conduct elections. GC §8571

This plan shall be used in conjunction with Napa County’s Emergency Plan and Care and Shelter Plan located on the County’s intranet site and the Secretary of State’s (SOS) Emergency Plan linked below.

CODE SECTIONS

The following is a list of the most common code sections that address options in an emergency. The SOS’s emergency procedures contain additional code sections.

EC §3018  VBM Voted at Elections Office or Polling Site
EC §3021  Request for VBM Ballot
GC §8567, §8571  Powers of the Governor
EC §12281  Change of Polling Place
EC §12327  Appointment of Precinct Board Members and Polling Sites
EC §14299  Insufficient Number of Ballots
EC §14402.5  Voting by Provisional When Poll Closing Extended by Court Order
EC §15213  Counting at the Precinct

SECTION 1: Numbers and Software Vendors

STAFF PHONE NUMBERS
Staff phone numbers are posted at every workstation.

LOCAL MEDIA PHONE NUMBERS
Use distribution list available on cell phones to all media

ELECTION DIVISION SAFETY COORDINATOR

Crystle Brumley 707-253-8313

IMPORTANT COUNTY PHONE NUMBERS
Director of Emergency Services:  707-253-4821
CEO: 707-253-4580
Personnel:  707-253-4003
County Officials – See binder for updated list. Confidential County Official numbers are in the binder, which is located in the Department Head’s office.
SECTION 2: Levels of Emergency Response

The department measures its responses to emergencies by the degree of alert created by an emergency. As always, if an employee becomes aware of an emergency situation that warrants law enforcement or medical assistance, s/he shall call 911 and notify the floor supervisor.

Standard Security Measures

Staff is required to wear county or department issued ID badges. Visitors are non-employees who enter the department’s offices beyond the front desk, through the gates, and are accompanied by the employee whom the visitor is seeing. The department’s computer server room and ballot room are always secured by a key fob, alarm and video surveillance.

Degree of Alert #1: Heightened Security

In the event of heightened security measures as designated by the Department Head (DH) or law enforcement, the DH may, when appropriate, request of the Office of Emergency Services Director permission for:

- ♦ voters to enter and exit the building to vote;
- ♦ staff to continue counting ballots; or
- ♦ the public to enter to conduct regular business.

If the department moves its processes to an alternate location due to an extended evacuation of the building, the department will seek to inform the public of the location of the alternate operational sites as soon as possible.

In the event that a staff member becomes aware of a suspicious person or object, that employee shall notify their immediate supervisor, who shall notify the DH. A suspicious object should not be investigated or tampered with in any way nor should suspicious persons be questioned or confronted. Call 911 if staff is in imminent danger.

Degree of Alert #2: Evacuations of Public and Staff

The following measures may be implemented by designated staff for evacuations in addition to the standard and heightened security measures discussed above:
Inform public to evacuate immediately in a calm manner through nearest exit if an alarm sounds.
Assist members of the public, including those disabled, who need assistance in evacuating.
Lock doors and secure vital records and ballots.
Proceed to designated meeting spot and stay together.
Approval of alternate site by the DH.
Post emergency messages on voice mail and building.
Forward department phone lines to alternate site, if possible.
Inform staff not in building via cell phone of building’s status.
Pre-designated employees shall check each floor and close the doors after exiting.

Evacuations on Election Day
In the event of an evacuation of the department on Election Day, the following steps, in addition to those stated above, shall be taken.

Stop ballot processing immediately and secure ballots and tabulation equipment by locking the doors to the ballot room and counting room. Sorted ballots not being counted are already stored in the secured room.
Ballots at work stations for sig checking shall be placed in the secure ballot room.
Ballots just received but not yet sorted and distributed are already stored in the secured ballot room.
Inform voters, in the best manner suited for the emergency, of the location of the alternate site at which voting will occur, if there is one.
Post on the building where the alternative drop off locations are available throughout the county.

Emergencies Affecting One or More Polling Sites
In the event of an emergency affecting one or more polling sites, relocation and/or consolidation of polling sites may be required. Under such circumstances, the following procedures must be observed by poll workers, inspectors and/or rovers:

Post signage advising voters of the relocation directing them to new sites and ballot drop off boxes.
Collect all voted ballots and secure them in the self-sealing bags if possible.
Collect the ballot box, unvoted ballots, and the roster of voters and transport to the new location.
At least two poll workers, inspectors, or rovers must remain with the ballots from each polling site at all times, and monitor that the ballots are securely transferred to the new polling site locations.
If possible, the department will deliver any new seals required.

Emergencies Affecting Collection Routes or Staff in the Field
Department staff shall:

Inform rovers who are in the field of the status of the site.

SECTION 3: Emergency Security Situations
For instructions for specific emergencies:

Telephone System Down
Call via cell phone to Communications to open a ticket.
Network Failure
Wait for further word from ITS Help Desk

Power Outage
In the event of a power outage, staff shall:

♦ turn off all appliances and computers; and
♦ use flashlights located throughout the division

If power outage will be of long duration, contact Public Works about possibility of using a generator.

Delegation of Authority
In the event of an emergency, the DH shall make all decisions regarding departmental operations. If the DH is not available to make decisions, full authority transfers to the Election Services Manager. If neither is available to make decisions, authority should transfer to the most senior staff that is available.

When at a safe place, the DH and his/her designees staff shall meet to perform a damage assessment, begin system restoration, if possible, and determine which operations should or can continue based on the nature of the emergency. Outcome of this meeting will be communicated to staff via cell phone and home numbers.

Emergency Outside of Work Hours
The Sheriff, police department, CEO’s office, or alarm company would notify the DH of an emergency occurring outside of work hours. If the emergency consists of an event that would allow selected staff to enter the building to retrieve vital information and data servers, the DH will inform that selected staff.

SECTION 4: Doing Business During Emergencies

Conducting Elections During an Emergency
Note: Only the Governor can suspend election activity.

How to Get the Word Out
The DH can use the following methods to put out a public service message:

♦ Radio, local print media, website
♦ Local TV stations
♦ Electronic bulletin boards at high schools or other businesses
♦ Office of Emergency Services
♦ NIXLE system via Sheriff

Protection and Recovery of Vital and Other Records
Remember, personal safety is more important than any documents in the office.

The items below are considered vital and essential records and should be taken from the building, if possible, depending on the nature and scope of the emergency.

♦ Counted and uncounted ballots
♦ Servers
♦ Other electronic data storage
♦ List of voters per EC §2180
Cash and checks in petty cash box

Server and Network Back Up
The department’s EiMS activity is located at ITS server farm. Backups for this data takes place automatically with the information transmitted over the County Network. Changes made in EiMS are backed up on a regular schedule.

Counted and Uncounted Ballots
Generally, whether counted or not, ballots are sorted into their respective precincts.

♦ Not counted: Not sorted, not sig checked; stored in secured ballot room until sorted
♦ Not counted: Still in envelope, sorted into precincts, sig checked; stored in secured room
♦ To be counted: Out of envelope but in boxes with precinct number; stored in secured room
♦ Counted: In boxes, sorted by precinct; stored in secured room.
♦ Note: Ballots can be temporarily at a work station for sig checking or in the ballot exam room.

If an emergency occurs that requires staff to remove ballots from the building, staff shall tape the boxes, or bins and move them to the new location.

If they cannot be moved from the building, ballots will be placed in one of the secured rooms.

Blank, unissued ballots should be left behind if there is no time to remove them. If there is time, the DH or designee will advise staff on what to do with blank, unissued ballots.

Manual Systems in Place
♦ All functions can be performed manually

**SECTION 5: Election Day Issues**

*Note: Only the Governor can suspend election activity.*

Vote Center Workers Fail to Report to Vote Centers
The department has a list of back-up vote center workers. When on-call, workers will be contacted if needed to report for duty.

Back Up Polling Sites
Election officials may designate a replacement polling site as late as on Election Day. The new polling site must be as close to the original polling site as possible and a notice must be posted at the original site directing voters to the new location. See EC §12281

Back Up Set of Polling Site Equipment
If a polling site experiences an event that renders their current equipment unusable, the department has extra equipment available so that the polling site can receive voters and operate in manual mode.

ICX Ballot Marking Devices Inoperable
There will be an alternate power source at each Vote Center. There will be back up equipment available to be deployed if needed. There will also be access to an accessible ballot method.
SECTION 6: Implementation and Maintenance

Communication During and After Emergency
Generally, the DH will make an announcement regarding the commencement of an evacuation. All office personnel and any members of the public will be instructed on which exit to use in a calm, orderly fashion and where to meet per evacuation protocol.

The department will use the following methods to communicate with employees during or after an emergency:

- Cell Phones
- Department Voice Mail
- Text Messaging
- Home Phones
- NIXLE

Safety officers will conduct roll call at evacuation site after sweeping the building. Once all employees are accounted for, any authorities on site will be notified. However, if a team member is not accounted for during roll call, authorities shall be notified immediately. The Safety Coordinator or management will inform staff of the status and possibility for re-entry.

What to Grab First
If there is time to do so and doing so does not jeopardize personal safety, staff may collect or secure the following items, listed in order of importance:

- Ballots (Voted first, all others second)
- Cash and checks and petty cash box

Computer Security
If there is no time to safely shut down desk top computers, staff should lock by using CTRL-ALT-DELETE. The reason for this is simply pushing the power button once may not be enough to break connection and shut it down completely. If there is no power, staff should wait for direction from the ITS Help Desk about the best way to handle the computers.

Evacuation Boxes
The evacuation box is a plastic box with a handle that is easily movable in an emergency and contains at minimum, items such as, but not limited to: vests, flashlights, radio, batteries, clip board and list of employees, pens, pencils, mini-first aid kit, and message pad. The Security Coordinator is responsible for maintaining the evacuation box.

Back Up Voting Supplies
This is a duplicate of the containers prepared for vote center workers. In the event a site must be moved and the workers are not able to gather their current supplies, back up supplies will be delivered to the new site if possible. The vote center coordinator is responsible for maintaining the Back Up Voting Supplies.

Pre-recorded Message
Emergency message contents are based on the nature of the emergency. Election Services Manager is responsible for ensuring that messages are up to date so that the public is notified by outgoing messages of new voting sites if the emergency happens on election day.

Signs
Signs will be prepared at each polling site that is relocated.
Drills / New Employee Orientation
New employees are informed of the contents of this policy by their supervisor. All staff shall be familiar with the evacuation routes and meeting sites. The department will hold drills during various times in the election cycle so that all personnel are familiar with the department’s emergency plans.

Training Strategy for Department Staff
The department maintains a binder that includes basic safety and emergency information and a copy of this plan. In addition, quarterly emergency preparedness and procedure meetings and occasional physical drills are to be performed.

This guide shall be reviewed and updated prior to each election on or by E-120.
This layout will be used for the Angwin, Calistoga Fire House, NVC Upper Valley Campus (St Helena) and Yountville.

CALIFORNIA CODE OF REGULATIONS
TITLE 2. ADMINISTRATION
DIVISION 7. SECRETARY OF STATE
CHAPTER 3. VOTING LOCATIONS
ARTICLE 1. VOTE-BY-MAIL BALLOT DROP BOXES AND VOTE-BY-MAIL DROP-OFF LOCATIONS

20130. Purpose.

The purpose of this Article is to establish guidelines for security measures and procedures if a county elections official establishes one or more vote-by-mail ballot drop-off locations or vote-by-mail ballot drop-off boxes. The provisions of this Article do not apply to polling places.

Note: Authority cited: Section 12172.5, Government Code; and Sections 10 and 3025, Elections Code.
Reference: Section 3025, Elections Code.

20131. Definitions.

(a) “Designated ballot retrievers” shall mean county employees, representatives, poll workers, or vote center workers, authorized to retrieve ballots from drop boxes, or temporary workers or volunteers retained and authorized to retrieve ballots from drop boxes.

(b) “Secure ballot container” shall mean a lockable and secure container that is placed inside a ballot drop box. If a secure ballot container is used, ballots are deposited directly into that container. A secure ballot container is not required for all drop boxes.

(c) “Secure ballot transfer device” shall mean a lockable and secure container that ballots deposited into the drop box shall be placed in by the designated ballot retrievers for secure transport to the office of the county elections official, a ballot receiving center, a designated central count location, or a ballot processing location.

(d) “Staffed drop box” shall mean a vote-by-mail ballot drop box that is placed in a location that is in the view of a live person who is employed at the location of the drop box, a city or county employee, or a temporary worker or volunteer retained for the purpose of monitoring the drop box. A staffed drop box is typically not available for use by a voter 24 hours a day.

(e) “Unstaffed drop box” shall mean a secured vote-by-mail drop box that does not have a live person nearby for monitoring and is available for use by a voter 24 hours a day.

(f) “Vote-by-mail ballot drop box” or “drop box” shall have the meaning set forth in California Elections Code section 3025(a)(1).

(g) “Vote-by-mail ballot drop-off location” or “drop-off location” shall have the meaning set forth in California Elections Code section 3025(a)(2).

Note: Authority cited: Section 12172.5, Government Code; and Sections 10 and 3025, Elections Code.
Reference: Section 3025, Elections Code.
20132. Drop Box Design and Requirements.

(a) To prevent physical damage and unauthorized entry, an unstaffed drop box located outdoors shall be constructed of durable material able to withstand vandalism, removal, and inclement weather.
(b) To ensure that only ballot material can be deposited and not be removed by anyone but designated ballot retrievers, all drop boxes (both staffed and unstaffed) shall have an opening slot with a height no larger than one inch, and a width no larger than two inches wider than the vote-by-mail return envelope. The opening slot shall be at an angle to minimize the ability for liquid to be poured into the drop box or rain water to seep in.
(c) A drop box, and a secure ballot container placed within the drop box, shall be designed such that any unauthorized physical access results in physical evidence that unauthorized access has taken place. An elections official may use a tamper-evident seal for purposes of this section.
(d) A drop box or secure ballot container shall provide specific points identifying where ballots are to be inserted. A drop box may have more than one ballot slot (e.g. one for drive-up ballot drop-offs and one for walk-up drop-offs).
(e) Each drop box shall be assigned a unique identifying number that is readily identifiable on the drop box.
(f) The drop box shall be clearly and visibly marked, as an “Official Ballot Drop Box”. The following information should be provided at drop-off locations in all languages required under Elections Code section 14201(c) and the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10503), and in the manner prescribed by the elections official:
   (1) Language stating that tampering with the drop box is a felony pursuant to Elections Code section 18500.
   (2) The telephone number of the county elections office.
   (3) The Secretary of State’s toll free voter hotline, (800) 345-VOTE (8683).
   (4) A statement that no postage is necessary when depositing the ballot into the drop box.
   (5) A statement requesting that the county elections official be notified immediately in the event the drop box is not functioning or has been damaged in any fashion.
   (6) A statement informing the public that no ballots will be accepted after 8:00 p.m. on Election Day, unless there are voters in line or the time for the closing of the polls has been extended by a court order.
(g) Drop boxes shall be designed to function as follows:
   (1) Drop box hardware shall be operable without any tight grasping, pinching, or twisting of the wrist.
   (2) Drop box hardware shall require no more than 5 lbs. of pressure for the voter to operate.
   (3) Accessible drop boxes shall be operable within reach-range of 15 to 48 inches from the finish floor or ground for a person utilizing a wheelchair. This shall not apply to a drop box meant to be used by drivers of vehicles.
   (5) Signage for ballot drop boxes shall be in a distinct color type that contrasts with the background and have a no-glare finish.
(h) In determining the final design and functions of the drop box, the elections official shall design them in such a way that the public will perceive them to be official and secure.
(i) Each drop box used in a particular county shall have the same use features, and be of substantially similar design, color scheme, and signage to facilitate identification by the public.

20133. Determination of Drop-off Locations and Number of Drop Boxes.
(a) Drop-off locations shall be determined by the county elections official. In determining locations, the elections official shall, at a minimum, consider concentrations of population, geographic areas, voter convenience, proximity to public transportation, community-based locations, security, and available funding.

(b) Staffed drop box locations may include, but are not limited to, city offices, public libraries, county offices, assisted living facilities, local businesses, and offices of community organizations.

(c) The number of drop-off locations and drop boxes at those locations shall be determined by the county elections official.

20134. Accessibility of Ballot Drop Boxes.

(a) County elections officials shall ensure that drop box locations are accessible to voters with disabilities, and should also ensure the following:

(1) If a location has only one drop box, the design and placement of that drop box shall meet the accessibility requirements outlined in subdivision (h) of Section 20132, and shall be placed as outlined in subdivision (b).

(2) If a location has more than one drop box, at least one of the drop boxes must meet accessibility requirements outlined in subdivision (h) of Section 20132, and the design and placement of drop boxes at that location shall in aggregate meet the accessibility requirements outlined in subdivision (b).

(3) At a location with multiple drop boxes, if not all drop boxes meet the accessibility requirements outlined in this subdivision, then each inaccessible drop box shall have directional signage indicating the location of an accessible drop box.

(b) For drop boxes, as specified in subdivision (a), depending on points of entry available for a location and any limitations arising out of local ordinances or private landowners, the county elections official shall make a reasonable effort to meet the following accessibility requirements with regard to design and placement:

(1) Accessibility guidelines established for polling places pursuant to Elections Code section 12280 shall be used to assess the features described subsections (2) to (6) below.

(2) If there is a public transportation stop available within 200 feet of the property line, then a drop box shall be placed along an accessible path connecting to the public transportation stop.

(3) If there is a parking lot available at the location, then a drop box shall be placed along an accessible path connecting to the parking lot. The parking lot should have at least one van-accessible parking space designated by the International Symbol of Accessibility (ISA).

(4) If there is a passenger drop-off zone at the location, then a drop box shall be placed along an accessible path connecting to the passenger drop-off point as determined by the elections official based upon the location.

(5) A drop box that can only be accessed by a voter from within their vehicle does not meet the accessibility requirements of this subdivision, unless it is accompanied by a parking lot with an accessible path of travel. In the event there is no accessible path of travel from the parking lot, there must be signage directing the voter to the nearest accessible drop box.

(6) Drop box locations that are placed inside a building shall be assessed for accessibility as if they were a polling place.

20135. Drop-off Location and Drop-box Security.

(a) An unstaffed drop box placed outdoors shall be securely fastened in a manner as to prevent moving or tampering, for example, fastening the drop box to concrete or an immovable object.
(b) An unstaffed drop box placed inside a building shall be reasonably secured to prevent unauthorized removal.
(c) A staffed drop box shall be securely fastened to a stationary surface or to an immovable object, placed behind a counter, or can be transported to a curbside area or a mobile voting area.
(d) A staffed drop box shall be placed in an area that is inaccessible to the public and/or otherwise secured during the hours the drop box is not in use.
(e) If feasible, drop boxes should be monitored by a video security surveillance system, or an internal camera that can capture digital images and/or video. A video security surveillance system can include existing systems on county, city, or private buildings.
(f) All drop boxes shall be secured by a lock, and shall be secured by a tamper-evident seal. Only an elections official and a designated ballot retriever shall have access to the keys and/or combination of the lock. If keyed locks are used, each lock shall have a uniquely keyed lock.

Note: Authority cited: Section 12172.5, Government Code; and Sections 10 and 3025, Elections Code.
Reference: Section 3025, Elections Code.

(a) The county elections official shall publicly announce the locations of drop-off locations and drop boxes at least 30 days prior to the election. The announcement must include the days and estimated times a particular staffed drop box will be available. Information shall be included in the county’s Voter Information Guide and Sample Ballot publication or included in vote-by-mail materials sent to voters, and conspicuously posted on the county elections official’s website. In the event any changes are made to locations and/or schedules, the information posted on the elections official’s website shall be updated within 24 hours.
(b) For the purpose of posting the locations on the Secretary of State’s website and to include information in any relevant election materials, the county elections official shall notify the Secretary of State of the drop-off and drop box locations, and the dates and estimated hours of availability, at least 30 days prior to the election. In the event any changes are made to locations and/or schedules, the Secretary of State must be notified within 24 hours.
(c) Drop boxes shall be locked and covered, or otherwise made unavailable to the public until the 29th day prior to the election, to ensure that no ballots or any other materials may be deposited before the vote-by-mail period begins. Prior to use on the 29th day before the election all drop boxes shall be inspected for damage and to ensure they are empty.
(1) A county elections official who provides a drop box outside of their office throughout the year for the purpose of voters delivering completed voter registration affidavits shall not be required to lock and cover those drop boxes.
(2) In the event drop boxes are deployed on the 60th day prior to an election for use by military and overseas voters, the provisions of this Article must be followed.
(d) Ballots shall be retrieved from staffed drop boxes every 96 hours between the 29th day before the election and the 10th day prior to the election. Ballot retrieval times shall be determined by the county elections official. However, at a minimum, ballots shall be retrieved from unstaffed drop boxes every 72 hours between the 29th day before the election and the 10th day prior to the election. After the 10th day prior to the election, ballots from all drop boxes shall be retrieved every 24 hours. The elections official may order multiple retrievals at any time to meet expected needs.
Upon the closing of the polls on Election Day, all drop boxes shall be locked and covered or otherwise made unavailable at 8:00 p.m. to ensure that no ballots are dropped off after the polls have closed. In the event there are voters in line at 8:00 p.m., or a court order has been issued extending the time for the closing of the polls, the drop boxes may remain open until those voters have cast their ballot or the court order extending time has lapsed.

20137. Ballot Collection Procedures and Chain of Custody.
(a) The county elections official shall develop ballot collection and chain of custody procedures, which shall be substantially similar to the following:
(1) The county elections official shall assign at least two designated ballot retrievers to retrieve voted vote-by-mail ballots from a drop box.
(2) Only designated ballot retrievers and law enforcement identified by the county elections official may transport the retrieved voted ballots.
(3) Upon arrival at a drop box, the two designated ballot retrievers shall note, on a retrieval form prescribed by the county elections official, the location and unique identification number of the drop box and the date and time of arrival.
(4) The designated ballot retrievers shall retrieve the voted ballots from the drop box and place the voted ballots in a secure ballot transfer device, or retrieve the secure ballot container that is placed inside the drop box.
(5) If a secure ballot container is used, the designated ballot retrievers shall place an empty secure ballot container inside the drop box prior to departure.
(6) After the final retrieval after the closing of the polls, an empty secure ballot container shall not be placed in the drop box, and the drop box should be locked and/or covered to prevent any further ballots from being deposited.
(7) The time of departure from the drop box shall be noted on the form described in (a)(3) above.
(8) Upon arrival at the office of the county elections official, a ballot receiving center, a designated central count location, or a ballot processing location, the designated ballot retrievers who retrieved the ballots shall note the time of arrival on the form described in (a)(3) above.
(9) The county elections official, or his or her designee, shall receive the retrieved ballots by signing the retrieval form, and including the date and time of receipt.
(10) The completed retrieval form shall be attached to the outside of the secure ballot container.
(11) When the secure container is opened by the county elections official at the office of the county elections official, a designated central count location, or a ballot processing location, the number of ballots retrieved and placed in that secure container shall be noted on the retrieval form.
(b) The retrieval form described by this Section may be in an electronic form. In the event an electronic form is used, the secure container must be identified in a manner to match the container with the electronic form.
(c) The county elections official shall provide a copy of their ballot collection and chain of custody procedures to the Secretary of State’s office by the 30th day before the election.

20138. Processing of Retrieved Ballots.
Any ballots retrieved from a drop box shall be processed in the same manner as vote-by-mail ballots personally delivered to the office of the county elections official by the voter, ballots returned to a polling location, and ballots received via the United States Postal Service or any other delivery service.

CALIFORNIA CODE OF REGULATIONS
TITLE 2. ADMINISTRATION
DIVISION 7. SECRETARY OF STATE
CHAPTER 4. BALLOT RETRIEVAL
ARTICLE 1. RETRIEVAL OF VOTED BALLOTS PRIOR TO THE CLOSING OF THE POLLS

20140. Purpose.

The purpose of this Article is to establish guidelines for the secure delivery and transfer of voted ballots retrieved from a polling place, including vote centers, prior to the closing of the polls to the office of the county elections official, a ballot receiving center, a central counting place, or a ballot processing location.

20141. Definitions.

(h) “Designated ballot retrievers” shall mean county representatives, poll workers, or vote center workers, assigned to retrieve voted ballots from polling places prior to the closing of the polls, or temporary workers or volunteers retained for the purpose of retrieving voted ballots from polling places prior to the closing of the polls.

(b) ”Early ballot retrieval” shall mean the collection and removal of voted ballots at any polling place prior to the closing of the polls for delivery to the office of the county elections official, a ballot receiving center, a central counting place, or a ballot processing location.

(a) In accordance with Elections Code section 14422, if the county elections official will direct the precinct board to seal ballot containers for ballot retrieval prior to the closing of the polls, the public must be notified within 48 hours. The notification shall be conspicuously posted on the county elections official’s website, at the office of the elections official, and at any satellite locations. The notification must include the dates, estimated times, and places at which ballots will be retrieved prior to the closing of the polls.

(b) The elections official shall also notify the Secretary of State’s office, who shall post that county’s information on the Secretary of State’s website.

(c) Notification of an early ballot retrieval must be conspicuously posted at each polling place where early ballot retrieval will occur immediately prior to the opening of the polls.
(d) In the event an immediate, unplanned, ballot retrieval is necessary, notice is not required, but the procedures set forth in Section 20143 below must be followed.

(b) The county elections official shall develop early ballot retrieval collection and chain of custody procedures, which shall be substantially similar to the following:

(1) The county elections official shall assign at least two designated ballot retrievers to retrieve voted ballots from polling places prior to the closing of the polls.
(2) The names of the designated ballot retrievers shall be communicated to the precinct inspector or vote center lead immediately prior to the opening of the polls. In the event a designated ballot retriever is unable to perform the duty of retrieving ballots, the elections official shall notify the precinct inspector of that fact and provide the name of the alternate designated ballot retriever.
(3) Only designated ballot retrievers may transport the retrieved voted ballots identified under this Article.
(4) Upon arrival at the polling place, the designated ballot retrievers shall provide their identification to the precinct inspector, and note, on a form prescribed by the elections official, the time of arrival.
(5) Immediately prior to the retrieval of the ballots, the precinct inspector shall publicly announce to the voters in the polling place that voted ballots are being retrieved prior to the closing of the polls for transportation to the office of the county elections official, a ballot receiving center, a central counting place, or a ballot processing location.
(6) Prior to departure from the polling place, the precinct inspector and the designated ballot retrievers shall sign the form described in Section (a)(4) above, and shall note the time of departure.
(7) Upon arrival at the office of the county elections official, a ballot receiving center, a central counting place, or a ballot processing location, the designated ballot retrievers who retrieved the ballots shall note the time of arrival on the form described in Section (a)(4) above.
(8) The county elections official, or his or her designee, shall receive the retrieved ballots by signing the retrieval form, and including the date and time of receipt.
(9) The completed retrieval form shall be attached to the outside of the secure ballot container.
(10) The precinct inspector and the elections official shall follow the procedures set forth in the Elections Code for the reconciliation of the ballots retrieved pursuant to this Article.

(b) The county elections official shall provide its early ballot retrieval collection and chain of custody procedures to the Secretary of State by the 30th day prior to an election in which ballots will be retrieved prior to the closing of the polls.
